Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens Weather Wise • Searches for a city/location • Allows location access	• Views current temperature • Checks humidity and wind speed • Views weather conditions	• Checks the forecast • Plans travel/outdoor activities • Checks weather alerts
Touchpoint <i>What part of the service do they interact with?</i>	• Weather Wise website/app • Search/location option	• Weather dashboard • Weather information display< • Forecast section	• Forecast section • Weather alerts/notifications •
Customer Thought <i>What is the customer thinking?</i>	• “I want to know the current weather.” • “Is my location available?”	• Is this weather information accurate?” • What is the temperature now?”	• “Will it rain today?” • “Can I plan my activities safely?”

Customer Feeling <i>What is the customer feeling?</i>	Curious and interested	Informed and confident	Prepared and reassured
---	------------------------	------------------------	------------------------

Process Ownership <i>Who is in the lead on this?</i>	Frontend & Location Module	Weather API & Backend Team	Forecast & Notification Module
Opportunities <i>How can we improve this stage?</i>	• Make location detection simple • Provide an easy search option	• Display information clearly • Improve loading speed • Handle API errors properly	• Provide clear forecasts • Add useful weather alerts • Make notifications easy to understand
