

Demonstration of Proposed Features

Date	30 September 2026
Team ID	SWTID-2026-9716
Project Name	Weather Wise
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features proposed during the planning phase of the Weather Wise project and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver the proposed solution through the collaborative efforts of five team members.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Real-Time Weather Updates	The application retrieves and displays current weather information, including temperature, humidity, and weather conditions for the selected location	Implemented	Yes	Provides updated weather details for users
2	Location-Based Weather Search	The application allows users to search for a city or location to view its corresponding weather information.	Implemented	Yes	Enables users to check weather conditions in different locations
3	Weather Forecast	The system presents forecast information to help users understand upcoming weather conditions and plan their activities.	Implemented	Yes	Supports daily planning through forecast details.
4	Weather Information Display	The application displays important weather parameters, such as temperature, wind speed, humidity, and atmospheric conditions, in an organized format.	Implemented	Yes	Makes weather information easy to read and understand.
5	Interactive User Interface	The application provides a simple and responsive interface that allows users to access weather information easily across different screen sizes.	Implemented	Yes	Improves accessibility and user experience.
6	AI-Based Weather Assistance	The application integrates Gemini AI to provide additional weather-related explanations and assistance based on user queries.	Implemented	Yes	Enhances user interaction through AI-powered support.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
