

Team Involvement in Demonstration

Date	30 September 2026
Team ID	SWTID-2026-9716
Project Name	Weather Wise
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and responsibilities of each team member during the demonstration of the Weather Wise project. Each member contributes to explaining the system's features, technical implementation, and practical applications. The responsibilities are distributed to ensure effective teamwork and a clear presentation.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Vaishnavi R	Team Coordination and Project Overview	Introduction, Problem Statement, and Project Objectives	Coordinates the team, introduces the project, explains the problem statement, and presents the main objectives of the weather forecasting system.	Active
2	Yuvanya C	Technical Presenter	Proposed Solution and System Architecture	Explains the system architecture, technical approach, and workflow, including weather data collection, API integration, and data processing.	Active
3	Vaishnavi S	Feature Demonstration Presenter	Weather Information and Forecasting Features	Demonstrates current weather conditions, temperature details, humidity, wind speed, and forecast information	Active

				provided by the system.	
4	Vaishnavi R	Application and Interface Presenter	User Interface, Search Functionality, and System Demonstration	Explains the user interface, demonstrates location-based weather searches, and shows how users can access weather information through the application.	Active
5	Yuvanya C	Impact and Future Scope Presenter	Feasibility, Benefits, and Future Enhancements	Presents the project's feasibility, practical benefits, and future improvements, including enhanced forecasting, additional weather parameters, and improved user experience.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Responsible for coordinating all team members, assigning presentation sections, managing the demonstration flow, and ensuring smooth communication throughout the presentation.
Overall Team Coordination Rating (1-5)	5 – All team members actively participate, communicate effectively, and complete their assigned responsibilities.
Any issues during demo	Minor technical difficulties, API response delays, or unexpected presentation issues may arise during the demonstration.
How issues were resolved	Issues are addressed through mutual support, clear communication, proper preparation, and coordination. Each member assists others whenever necessary to ensure the demonstration continues smoothly
